

## SCRAMBLING FOR SEATS ENLIVENS LEAGUE MEET.

**Thirty-five Nations Out of Forty-eight Seek Representation on Bench of International Court of Justice.**

BY CABLE AND ASSOCIATED PRESS

GENEVA, Sept. 13.—Competition among about thirty-five out of the forty-eight States, members of the League of Nations, for the eleven seats on the bench of the International Court of Justice and for the four seats in the League council gave life to the Assembly sessions today.

The aims of the leaders to have represented in the court all principal geographical divisions and all races, have been somewhat complicated by the ambitions of most states to be represented. Namibia is a member both of the court and in the council, while South America and Africa will be represented with one member in the council. So there are not less than three on the court.

### HONOR ON LIST.

An official list was issued today containing the names of men nominated for international court judges who had declined to stand as candidates. The list bore the following names:

### GUSTAV ADOR, former President of Switzerland.

### CHRISTIAN DOHERTY, Canadian Minister of Justice.

### LEON BOUROUX OF FRANCE.

### MANUEL GONZALEZ MONTERIA, Mexican Minister of Finance.

### PAUL HYMANS OF BELGIUM.

### JOHN E. C. LEDER, Holland is regarded as practically certain of election.

John Bassett Moore of the United States is another strong possibility.

Competition for the four remaining seats is very lively between South and Central America, Scandinavia, the Slavs, the Czechs and the British dominions.

A. De Bonten of Cuba is much favored, as well as Dr. A. Alvarez of Chile. It is impossible to figure how the south and central Americas can elect more than one representative, as the presence of other countries, which otherwise would be left unrepresented. Dr. Max Huber of Switzerland was most prominently mentioned as a candidate, and candidates Judge Ryholm, of Denmark, and Judge Hammarskjold of Sweden are favored by the Scandinavians; M. Jevonsky, by the Slavs and Czechs; and Robert L. Borden of Canada is the leading candidate of the dominions.

**CHILE TO SUCCEED BRAZIL.**

It is thought likely Chile will succeed Brazil as one of the four non-permanent members of the council. Chile, Norway, Sweden, supported by Spain, while Brazil, under the resolution adopted by the assembly last year providing that one of the non-permanent seats should be left unrepresented, Dr. Max Huber of Switzerland was most prominently mentioned as a candidate. Judge Ryholm, of Denmark, and Judge Hammarskjold of Sweden are favored by the Scandinavians; M. Jevonsky, by the Slavs and Czechs; and Robert L. Borden of Canada is the leading candidate of the dominions.

**HUNGARY TO QUIT.**

Hungary is expected to leave the League to withdraw its application for admission to the League.

Relations between Hungary and Austria have developed a strong sentiment against admission of Hungary.

Charles Doherty, Canadian Minister of Justice, said tonight he sought the most effective way of

protecting the League's interests.

Taking the floor in the general debate which was continued on the opening of the Assembly session,

he said: "The League must be given a chance to prove its worth."

MAY MEAN A  
NEW GOLF ERA.  
Amateur Title Turned This  
Week in St. Louis.

New Championship Play in  
the Middle West.  
To Hold Meets in Different  
Parts of Country.

BY WALTER HAGEN,  
New Open Champion of the United  
States.

The amateur championship to be  
held this week in St. Louis, over  
in western golf links, recalls the  
time when the British has ever  
played this far west before. It  
will mark a new era in golf, and  
is destined to further the tournament  
of golf in different parts of the  
United States. I understand, is  
to get a "U.S." championship and  
exhibit it at one sooner or later.

## BIRMINGHAM CHAMP.

The champion this year will  
have the continental flavor with  
the American, the Scotch golfer  
and Will Hunter, the present holder  
of the British title, competing.

What we have now to win our  
titles is to take a trip abroad  
as far as it did ten years ago  
when H. M. Wilson, the English  
champion, first beat the fact that both  
Wilson and Hunter are very fine  
golfers. The pair I rather fancy  
is a long time to come. He is a  
true links player, I think, and a  
man who has won his most last  
year at the Engineers' Club was  
a good player. He did not know as  
well as the links game shot as  
he does today. Another has had  
to learn to match play to  
be a very strong contender  
against a dangerous opponent  
such as he is. He has done  
well, however, and he will do  
well. He has already won one  
championship in this country this sum-  
mer at Shene-

CHARLIE GOES HOME.

COMEDIAN CLIMBS AT MID-NIGHT TO OLD ATTIC.

By Grace Kingley.

For the first time since he left the place, a poor, penniless little boy, Charles Chaplin, the famous comedian, Sunday night climbed the three flights of stairs leading to his old attic home in Kensington, according to a dispatch received from London last night. At midnight he went out to Kensington, preferring that hour, as his friends will understand, because being a sort of sentimental Tommies, perhaps he would get more somberness out of the experience than he could in the daytime.

According to his little old room under the roof, he found that an interesting personage known to the neighborhood as Old Lady Reynolds now lives there. He knocked at the door and when voice asked, "Who is there?" Charlie answered:

"Charlie Chaplin. I used to live here. May I come in?"

Miss Reynolds hastily donned correct attire and admitted the comedian, who had come to collect for an hour, after which he returned to the Ritz. He slept until late in the afternoon and then went out for a walk. He had one thing in mind, that old attic—dinner, much-thumbed copy of Dickens' "Christmas Carol," the first book he ever owned, and one much loved by him, and which by some miracle had remained.

From this walk he had soon to return to his hotel, however, as friendly mobbing of the comedian was the favorite outdoor sport of many Londoners.

For Chaplin remains a mystery man, shy and silent to many, these days.

A big crowd mobbed a youth in a dinner jacket believed to be Charlie, at the corner of McClelland and Monday night, but Chaplin's manager said he was not there. Instead, he stated, Charlie spent a quiet evening at the hotel, at which time he ate his old favorite dish, steamed oysters. Charlie ate three dishes, saying he had missed them while in America.

Highbrow art was the subject of his interest in the comedian. No less a young a body than a group of English psychologists, now in session at Edinburgh, have already discussed the question of the sense of humor in children. They finally solemnly decided that Charlie's appeal to children is due to the fact that he breaks all social conventions by doing all the things which are forbidden to do.

Historical Western.

Leave it to those western boys to see it that art gets an upward heave every once in a while. First there was Hoagy Gibbons, and then there was John Ford, long ago, the fact isn't mentioned, in select picture circles any more—there was Jack Holt, all of whom twirled a mustache and a cigar, and the like. They later got the idea right out of their own head to make stories of the prairies.

Mr. Hatton is a man of action, and no sooner did the inspiration strike him than he rustled right around and formed a company under the name of Prairie Productions, with himself as producer, and the well-known western capital interests backing him.

Prairie Pictures is not to film simply old tales of the prairies, says Mr. Hatton, but such stories is to incorporate into its thrilling adventures some real historic episode. A series of twelve pictures are to be filmed, and will have their distribution via the Western Picture Exploitation Company, of which Irving Lerner and Mike Rosenberg are managers.

"Fearless Dick" is the name of the first picture, which has already been completed. It was made in Sonoma, California, on the plains of the Middle West, and despite its somewhat saffron-colored title, it is said to be really a historic interest.

And now comes the announcement that the picture is the opening of the house for drama, and possibly incidental therewith, the Ambassador Theatre. The play house pre-release of certain pictures.

Coming Sunday, Constance Binney will be seen in "Room and Board," while the week following the attraction will be Shirley Mason in her Santa Ana special.

The picture will be filmed in Arizona, and Miss Craig will again be Hatton's leading woman.

Dick Hatton's next

is "Honey Hearts." George Siegman and Otto Lederer have been cast for important roles in "Honey Hearts." Anzio Yesler's story, while Goldwyn's is planning to leave New York for the next three weeks.

Jack Coogan Honored.

Speaking of Charlie Chaplin reminds me naturally of Jackie Coogan. It's Col. Jackie Coogan now, if you please.

Heremore, Jackie has been making hits with ball teams. He has had dolls and suits of clothes named after him, but his greatest honor was conferred on him that week when he was appointed colonel in the St. John's Military School.

It happened out at Washington ball park during the program for the Orphans Field Day. Dick Jackson, the boy who has been a regular star in the show, was a member of the team. And that's the reason why the discussion will include the matter of disposing of Roscoe Arbuckle's pictures not yet released.

## Caretree Bill Sparkles at New Pantages.

With new movie stars giving a fresh start to the entertainment everyday, the program at New Pantages is moving along at the speed that kills, this week. It won't kill with any harm, for there are few clouds to the sun.

The play provided one of the greatest Broadway successes of Collier's, and during the last year, however, for the stars are few clouds to the sun.

The musical end of the show is bright and snappy. Mr. Albright heading this portion with several numbers sung in his own style. Joe Pappalardo and Eddie Murphy offer the usual popular numbers and Miss Grey, Miss Albright and Mr. Reed also contribute some selections.

Following the picture program is William Desmond in "Women Men Love." This very unusual story gives Mr. Desmond opportunities to display his talent. He is ably supported by Martha Mansfield, Marlene Dietrich and Evan Burrows Fentaine.

Albright Show Please.

"Oh I a h a m Bob" Albright's Broadway Follies registered another success at Pantages Broadway yesterday with their current offering.

Henry Shee and Frank Samuels in their usual characters as Abe and Nifty engaged as partners in a candy-manufacturing business. It is remarkable how well the show is.

Jacqueline Logan, a former Pantages beauty who has been coming rapidly to the front in pictures, will also be in the cast.

Nigel Buck from Gotham.

Conrad Nagel, popular Paramount leading man, returned yesterday from a flying trip to New York where he went to attend the thirty-first wedding anniversary of his parents.

The only objectionable feature of the trip, according to Mr. Nagel, was that he was forced to travel alone. Miss Nagel was of the opinion that the weather in New York would be too hot for Baby Ruth and remained home with her little daughter.

Those who know him are looking forward to his report concerning the artistic activities in France during the past year. The spirit of a great nation is shown in its music, literature, and art during such a period as that through which France has passed, evidences unselfishness, patriotic fervor, and the forty-eight selected American musicians who have studied at Fontainebleau this summer, the Conservatoire of Paris, among them, will doubtless be able to aid in the interpretation of the art of France to the American people.

Colleen Moore Reel ACCIDENT VICTIM.

Colleen Moore, captivating little screen actress was run over by an automobile recently. Yes, really. She can actually pass over a stone, she won't be hit.

What was done was for a scene in "The Wall Flower," a Goldwyn picture by Robert Hughes.

The actress, under the direction of Mr. Nagel, worked all night to get the scene, but it will occupy only a minute or so on the screen. The director and his associates are keeping the process a secret.

A new method was used for the first time, and worked admirably.

Although she wasn't hurt a bit, Miss Moore says she got a big thrill from passing the car over her body.

Mr. Hughes wrote into his scenario that the Wall Flower should be so broken-hearted after a scene done that she should go out and hurl herself into a river.

**AGENDA TO GET NEW PROBLEM.****China Refuses to Negotiate With Japanese.****Declares Tokio's Shantung Proposals Mockery.****Peking Government Fears the Anger of Anti-Nipponese.****BY J. R. POWELL  
(EXCLUSIVE DISPATCH.)**

WASHINGTON, Sept. 13.—China's refusal to enter into private negotiations with Japan for the settlement of the Shantung controversy makes it practically certain that that question will be one of the major problems before the agenda of the diplomatic conference at Peking. China refused to negotiate, although announced from Peking that a private negotiation between the two countries might be the direct cause and thus interfere with the Washington conference, is believed to be much deeper. The primary reason must be the fear that the Chinese government would be slow to announce publicly and that reason is the result of internal political situation in China. This is very well understood in Washington and goes back to the intense political situation in China since the Paris Peace Conference, when Japan was awarded the former German rights in Shantung Province.

**CHINESE ANGERED.**

The announcement of this award in China in 1919 was followed by a demonstration of popular indignation and agitation such as China has not seen in modern times. The first man to go to Peking, which the people believe to be un-patriotic and in league with the Japanese militarists. After the overthrow of Yuan Shih-kai, King Christian IX started a nation-wide boycott of Japanese goods. This boycott is still a force in China, which is felt to be the Japanese commercial interests.

Should the Chinese government now enter into private negotiations for the restoration of the Shantung, it is possible that anti-Japanese feeling would flare up again and no Peking government would stand for many days in the face of it.

**REFUSAL EXPLAINED.**

The explanation of the political reasons for the refusal to negotiate, left China, according to well-known reports, finds other reasons in the Japanese proposals. Japan's proposal for a basis of settlement of the Shantung question are eight in number. In the first place, having to do with the restoration of Kiao Chow Bay to China, there is naturally no objection on China's part, but in the second proposal in connection with the restoration of Kiao Chow Bay there is a joker that would make the return of Shantung a mockery.

The second Japanese proposal states that if China will agree to give the Chinese the territory to trade and have the status of recognizing the rights and privileges already acquired by foreign governments in 1919, where she is to take over an administration at Tsinling. The 1919 agreement refers to the twenty-one demands which were served upon China after an ultimatum and which China finally signed in an abject form and against which the State Department has entered a reservation. It is the phrase "recognize the rights and privileges already acquired by foreign governments" that causes alarm and also which the American government might find to be a further infringement on the open door policy to which it is committed.

**RESOURCES GRABBED.**

Since the fall of 1914 when Japan captured Tsinling, Japan have been trying to get possession of most of the resources of the province. First they took the Chinese interests, and this included the coal, mineral, banks, navy yard, docks and residence property. It was said the case would be carried to the privy council in England if necessary.

"The dominion tax," affirmed the American Federation of Labor, John L. Lewis, president of the United Mine Workers.

The date for the opening of the conference has not been definitely set, but it is expected that Sept. 26 will be the date.

**KING .. IS .. GREETED .. FOR .. FIRST .. TIME.****Christian Prince Visit to Possession and Has Excellent Time.****King Christian Greets School Children at Good Hope.**

On his first visit to Greenland, King Christian of Denmark had an excellent time. In the picture shown above, he is greeting the school children of Good Hope. At the extreme right is Queen Alexandra, leaning on the shoulder of one of her daughters. The boy just behind the Queen is the Prince of Denmark, entering and inspecting the quiet hours of the natives, visiting the beautiful needlework with which the Greenlanders turn their long nights and decorate their costumes, and watching skin canoe races in the ocean. The islanders turned out in their provincial best—and a gorgeous best it was—high boots of fine leather, trimmed with broad bands of soft fur and fine lace; exquisite bodices of fancy crochet and needlework; pants adorned with lace at the seams and handsomely embroidered, and fancy woolen caps.

1919, when the peace treaty was under consideration.

Another curious turn to the negotiations of the present is the fact that the negotiations developed in Washington today with the publication of a statement which has not been made public. Robert Lansing, Secretary of State, uses the Wilson administration, is to be an adviser to the Chinese delegation at the coming negotiations. This is particularly interesting, as Lansing has written to Mr. Meyer, his fourth husband, Edward F. Meyer, here last fall. She took the statutory twenty-four-hour period in which to consider his proposal.

The prosecutorial attorney said that poison was found in the bodies of four of her husbands. Her present husband is in jail.

Mrs. Southard arrived in court with her left hand bandaged. One of her attorneys stated that she had scratches on her hand and infection had set in. Her doctor advised her to collect as it was when she appeared in probate court for preliminary examination soon after being brought back from Honolulu.

**BY A. P. NIGHT WIRE**  
VICTORIA (C. B.) Sept. 12.—Suit by the provincial government was filed in Exchequer Court today asking that the dominion government of Canada be relieved from imposition of liquor taxes imposed by British Columbia. Atty.-Gen. E. F. Harris said the action was based on the contention the liquor was imported by the provincial government.

To test the act the provincial authorities purchased some Scotch whisky in England. On its arrival customs officials refused to admit it, while the liquor was to be carried to the privy council in England if necessary.

"The dominion tax," affirmed the Atty.-Gen., "is larger than the profits we are deriving from the sale of our liquor."

The date for the opening of the conference has not been definitely set, but it is expected that Sept. 26 will be the date.

EASTERN MARKETS GAIN.**

**Wheat and Cotton Follow Upward Trend of Stocks; Advance by Mark Not Sustained.**

BY ALEXANDER DANA NOYES,  
Financial Editor New York "Times."

(EXCLUSIVE DISPATCH)

NEW YORK, Sept. 13.—In most of the speculative markets today was the occasion for recovery from the previous day's downward reaction. On the exchanges the day ended with a very considerable number of net advances ranging from 1 to 4 points. The substantial gains were not restricted to industrial shares, as there have been several recent days. Railway stocks also moved up sharply on the announcement of the regular Great Northern dividend. This is one of the company's continuing policies on dividends some doubts had been entertained, based on the fact that even the greatest increased net earnings in July were not enough to provide for less than half of one month's proportion of the 7 per cent annual dividend after allowing for its proportion of fixed charges.

Both wheat and cotton moved upward today along with stocks; the recovery in cotton, however, occurring only after an early the theory of tax collections—had further relapses in price. In the in-

terest not only of consumer, but

of the movement of cotton prices

should have been brought to a more orderly status. Last week's market had brought out rather too much enthusiasm, with about 50-cent cotton to encourage confidence in a sound condition of things if prices had gone on rising unbrokenly above 10 cents.

A subsequent statement by the German mark was not sustained; the price fell back later to Monday's low figure. The weekly statement of the National Cotton Council gave one explanation of the forces at work on the market. It showed that notes in circulation had increased \$84,000,000, or 1.5 per cent, and \$1,500,000,000 in a fortnight; yet even this seemingly huge expansion did not bring the total outstanding paper to the year's highest point. The market had shown a marked reduction in the second week of August—unexplained except on further relapses in price. In the in-

## Do you want to buy or sell a clothing store?

**I**f you want to buy a clothing business, or sell one, there's somebody, somewhere, who would like to do business with you. It isn't always easy to find the right man for your proposition.

We have many requests during the course of a year for both kinds of deals; some want to sell, some want to buy.

It occurs to us that we might be helpful to both sides, without any expense to either, if we offered our services as a "clearing house" for buyers or sellers in the clothing business; anybody, whether customers of ours or not, may take advantage of it.

We want only propositions that will bear exact investigation; we shall expect to investigate every such case before we go far with it.

We know of a good opportunity now; retail business established for 50 years, with fine prestige Doing \$250,000 a year in a good city. Senior partner died and his interests were withdrawn. Surviving member wants a partner with capital.

If you're interested in buying or selling, write us about it; save time by giving us all the facts in the first letter.

**COLD IS King—the New King Is GOLD**  
and then—  
I struck gold!

The present FORTUNE for the prospector—for him alone. It is different today—it takes joint organization to run a big mine and make a fortune, not for ONE man, but for hundreds or thousands!

You can be part owner of a BIG mine—which expert advice says we can develop into one of the largest in the world! We have gold—nearly a million tons of ore blocked out! We have no new prospect, but a fully developed mine, ready to produce!

**New King of Arizona**  
is in a region of fabulously rich mines. The men of the Company are practical mining operators—and they have already spent \$300,000 of their own money in improvements for the benefit of the mine and of stockholders in the Company!

We do not regard the present offering of stock as in any way speculative. It is solidly backed by a valuable property—a property which can produce millions of dollars in ore! The opportunity for profit is unusual, even compared to present big dividend-paying mines! Don't you want the benefit of a REAL, money-making opportunity? Then surely need the information blank below for full information!

## Burch and Mrs. Obenchain Deny 'Confession'

### "TRAP" TACTICS DENOUNCED.

Attorney Says Circumstances Surrounding Transaction "Small Bad."

(Continued from Page 2.)

See with what occurred last night. Mrs. Attorney, and Undersheriff Burch, who have been handling the case, expressed their belief that the man quoted by Sprague is correct and that Burch was duped. In the confession Sprague said he did not hang himself with his story. Mr. Keyes was quoted as saying he was taken in by the "trap" which Mrs. Obenchain set to kill Kennedy. Whether or not the trap clinched the matter. The District Attorney's office feels entirely satis-

factory with what occurred last night. The result of the so-called confession is expected to be that Dep. Dist.-Atty. Keyes will argue against the prosecution of Sprague, according to Chief Dist.-Atty. Doran. Mr. Doran indicated that it is not likely that such a course will be adopted.

In his alleged confession, Burch is quoted by Sprague as saying he came to Los Angeles to assist Madalynne Obenchain to escape from the influence of Kennedy, which he fully admits. According to Mr. Obenchain and Mr. Burch when the matter comes up Friday, taking the position that there is no ample evidence that either Burch or Mrs. Obenchain conspired to kill Kennedy, and that Burch lay in wait there with a shotgun. The first shot

missed Kennedy, according to the alleged confession, but the second one got him. Burch is then quoted as saying he dropped his gun away from the place, dropping the shells when he broke the gun into two parts. He is then said to have fled to the mountains, driving to San Monica, where he then threw the gun into the ocean. In this alleged confession, Burch is said to have verified the prosecution's theory of the crime to the extent of the damage and repair. Burch is also quoted as saying he cut the barrel of the gun and Mrs. Obenchain threw a piece of the barrel into the water at Westlake Park.

**STATEMENT UNSUPPORTED.**

The county grand jury was called into session for the purpose of giving Sprague an opportunity to tell his story, published by him yesterday, and to furnish some officiality and absolve him from what he termed his obligation to Burch. The jury was called into session by order of Dep. Dist.-Atty. Keyes in order to determine whether or not to indict Burch in the killing of Kennedy. The jury also asked to hear another newspaper reporter, in an attempt to verify a portion of Sprague's statement. His testimony did not corroborate the story.

**STATEMENT BY SCHENCK.**

In a written statement issued by Attorney Schenck, the lawyer says that Mr. Sprague came to him while he, Schenck, was at Flagstaff, Ariz., from another city, and before he had seen Burch. Sprague told him, he says, that he had secured a complete statement from Burch about the murder and that the Exchange had paid him \$2,000 and later \$4,000 for the privilege of printing it over his signature. It is, according to Mr. Schenck, that Burch wanted to accept the offer, but he did not do so, and Mr. Schenck had given his consent. The attorney continued that, in view of the fact that he had never seen or talked with Burch, he would not know if Burch had been under pressure, but that on his return to Los Angeles he would see his client and ascertain the facts in the matter.

When he returned to this city, the statement continues, Mr. Schenck saw Burch at the jail. Charles Sprague being present. Burch asked to talk to his lawyer alone, saying that he had always been misquoted by the press. Sprague, according to one side and Mr. Schenck, told his client, he says, that Sprague had come to him stating that he (Sprague) had secured what amounted to a confession of the murder of Kennedy from Burch. Burch immediately declared, according to the statement, that he had never told the newspaper man or anyone else that he had killed Kennedy and that anything to the contrary was a deliberate falsehood. The lawyer informed Mr. Sprague of this denial and left the jail.

**OFFICERS OF FLEET TO ATTEND PARTY.**

**GARDEN PETE AND HARVEST MOON DANCE WILL BE HELD ON SATURDAY.**

Admiral and Mrs. Eberle and other Pacific Fleet officers and their wives will attend the garden party and harvest moon dance Saturday in the gardens at the home of Mrs. Queen W. Boardman, 3830 Sunset Boulevard. The festival is being given under auspices of the American League for the benefit of the blind Allied soldiers and foreign veterans.

Members of the Bachelor's Club will have charge of the dancing. Gabriel Duane, president of the club, is chairman of the dance committee, and other members are Dave Brant, William H. Miller, Bradner W. Lee, Jr., Alfred J. Salisbury, Hesse Llewellyn and William T. McLean.

A large pavilion is being built. Dancing will be free. There will be many concessions, coffee food, ice cream, popcorn, candy and peanuts, roulette wheel, fortune telling, crystal gazing, clock golf, golf-masters, and a continuous vaudville performance. There will be a band with hand organs in the children's playground and many interesting games for children. Hawaiian dances will start in the grounds and there will be Spanish and Indian fortune tellers and Tiroc cards. Film stars will be present. Misses Tipton and Gandy, who will be in charge of the paddle wheel. Hamm and Bacon will be the trophies at another game.

**Women Today Are Looking For Good Quality At Fair Prices. They Will Find It Here**

**100 Fine Baby Carriages \$37.50**

100 Babies are going to be very happy. The great world is going to open wide for them.

For a hundred new Carriages will take the babies on tours—promenades everywhere for the fresh air and the rapture of being abroad under the trees—corduroy. There is a wind curtain of the corduroy which may be fastened to the hood.

Smooth, resilient fiber is used to make them. Different colors may be had in the enamel finish: gray, navy, mahogany, cafe, ecru and white enamel. The sketch gives some idea of the smart appearance. The Carriages are now being shown in the windows.

For Wednesday, then—100 Baby Carriages at a figure that is exceptional—\$37.50.

**A Sale—a Robinson sale—that is all!**

DEPARTED SECTION—FOURTH FLOOR

**Imported Mill-End Laces**

3000 Pieces of Imported Laces—very fine Venise, Oriental and novelty Laces—will be offered at a fraction of their true value for Wednesday.

The low prices are 35c, 50c and \$1.00 a yard.

They are mostly mill-end. Some are sample pieces from a well-known manufacturer.

The yardage varies, the shortest piece being 3-4 of a yard long, and the longest, 3 yards.

They will be sold just as they come, as the pieces cannot be cut.

Some are all white, others are of silk not combined with metal embroidery. There are edges, bands and flourishes.

35c, 50c and \$1 per yard.

**The New Suits**

Chin collars of fur, standing away from the throat, are one of the factors that give the new Suits the fall tone.

Sleeves may be wide at the bottom—and many of the Suits at Robinson's are showing these bell flares.

Jackets are three-quarter length, slightly nipped in under the arm; short box models and of intermediate length—from 30 to 40 inches.

Materials are panveline, mousseline, veldyne, marveila, dacetin, piqueine, esqueline, roubax cord, twill cord, tricotine, homespun and tweed mixtures.

Prices range from \$37.50 to \$495.00.

## SEEKS DIVORCE; CHARGES FRAUD

**Mrs. Arthur G. Baker Revives  
Marital Tangle.**

**Property Wrongfully Deeded  
Away, She Declares.**

**Four Codefendants Named in  
Pasadena's Suit.**

The divorce tangle of Mr. and  
Mrs. Arthur G. Baker of Pasadena  
was revived yesterday by the filing  
of suit for divorce by the wife,  
Helen S. Baker.

Last spring Mr. Baker sought re-  
lief from the court by an action in  
which he charged that his wife had  
attempted to force him to agree to  
a division of the community  
property. Judge Walton J. Wood or-  
dered the property sold. Mr. Baker,  
who had been an admitted com-  
plainant, dismissed his suit and the  
court took the matter under advisement.

Mr. Baker now takes that an or-  
der of court has forced him to renounce  
his husband from disposing of vari-  
ous pieces of real estate in Pas-  
adena, Long Beach and this city, and  
to give up \$1,000 from opening his  
safe deposit box in a Pasadena bank.  
The complainants names as co-defen-  
dants, Edwin Vought, Amanda Vin-  
ting, Andrew Baker and Elizabeth  
Baker, his wife, are to be represented  
and that certain stock in the Wilkes-  
son Auto Parts Company and real  
estate has been deeded to those co-  
defendants to be held in trust for  
Mr. Baker and with the intent of  
defrauding the plaintiff. Mrs. Baker  
also asks that she be allowed to  
retain her maiden name of Helen  
Grace.

The Bakers were married June  
14, 1910, and separated Nov. 29,  
1919. Attorney G. P. Adams filed  
the complaint for Mrs. Adams.

**Abused Until  
Ill, Charge of  
Decree Victor.**

George J. Wheeler, according to  
his attractive young wife, Dennis  
M. Wheeler, testifying before Judge  
Summerfield yesterday in divorce  
proceedings conducted a continuous  
course of rough criticism of her  
action "for the sole purpose of annoy-  
ing her and hurling her feelings  
into a condition of insultingly  
remarks about her father," she said.  
She testified further that Mr. Wheeler  
failed to provide for her and  
that she was compelled to seek employment as a  
nurse to support herself. She was  
granted a decree.

She was employed in a private  
house in Glendale. Once when her  
husband called her a "bitch," she said,  
that she became ill, she said. Re-  
cause of this purported treatment,  
Mrs. Wheeler claims physical, mental  
suffering and her illness aggravated.  
She was married in Fresno July 12,  
1918, and separated last March 3.  
Attorney M. A. Woodward repre-  
sented her.

## FIGHT IMPENDS ON HALE WILL

(Continued from First Page.)

Proprietors of the Boston Rooming  
house on Second street near Broad-  
way and are said to have accumu-  
lated a considerable amount of  
there, the greater part of  
which was invested in property. The  
family home at 4225 Pasadena Avenue  
was turned over by the court  
to Mrs. Hale pending the conclusion  
of the divorce proceedings and is  
now occupied by a male sibling.

Sensational charges are contained  
in the original and in the amended  
and supplemented complaint of Mrs.  
Hale. Her petition for divorce was  
filed May 24, the same year.  
In the latter document Janette  
Griffin and Anna Tully are each  
named co-respondent. Anna Tully  
named her husband, but retains her  
maiden name. She is living in Sierra Madre.

**TEACHERS RUSH HERE.**

**Kepell Says Favorable Laws Are  
Cause of Big Index.**

"Los Angeles is becoming a mecca  
for school-teachers," County Super-  
intendent of Schools Kepell said yes-  
terday.

On last July 1, 1920, teachers' certificates  
have been issued by the county super-  
intendent's office, representing  
more certificates in two and one-half  
months than were issued in any one  
year prior to 1919.

"Favorable state legislation in  
educational matters has made California  
the envy of every other State in  
the Union," said Mr. Kepell.  
The minimum salary of \$1400 per year for teach-  
ers, educators are coming here from  
all over the United States. At present there are 5500 teachers employed  
in the public schools of the coun-  
try."

**INDIAN BASKETS  
GO TO MUSEUM.**

"Times" to Tell of Mrs. Anita  
Baldwin's Gift to Institu-  
tion More.

A large and fine collection  
of Indian baskets has been  
placed in the Southwest  
Museum by Mrs. Anita Baldwin,  
who believes in keeping  
curios of the Southwest in the  
Southwest's museums. California  
was the motherland of  
basketry, for the Pimas were  
the most skilled of all, employing  
nine weaves.

The Anita Baldwin collection  
will be described, and  
something about Indian basketry  
in general will be re-  
lated in another article in The  
Times, next Sunday, by Dr.  
John Comstock, director of  
the Southwest Museum. From  
time to time Dr. Comstock  
will tell Times readers about  
the remarkable things to be  
seen at the institution to  
which admission is always

All Ridiculously Underprice!**

—The wholesale cost of most of these dresses was so  
many times more than we have marked them that we  
would hardly expect you to believe us if we were to quote  
the figures.

—Included among them are dotted swiss, Japanese  
crepes, ginghams, and chambrays in a world of pretty  
figures! For the most part there are only one or two of a  
kind. No phone orders—no C. O. D.s and no exchanges.

Jacoby's Underprice Basement.

—They came to us in an extraordinary purchase—so  
much under worth that we are able to sell them for less  
than their usual wholesale cost.

—And of quite as great importance as the lowness of their price is the  
fact that they are all brand new—the very models that are in vogue  
right now.

—We have pictured six models—we wish we might have room for  
the other nineteen, for you'd like them all quite as well as these.

—Most of them are of Canton crepe, though there are a goodly number  
of crepe meteors, satin charmeuses and crepe de chine! Black  
predominates, with navy, brown and Copenhagen well represented.

—We think these dresses at \$23.00 make up one of the most sensational  
sales that Los Angeles has seen in months! We expect to see  
every one of these dresses sold by noon!

—No phone or mail orders—no C. O. D.s—no Exchanges.

## JUST A TEASER.

The local druggists all agree that they  
will not sell more than a pint of the stuff  
at any one time. What good will a pint do  
when a man has the mange?

## KEEPING UP WITH LIZZIE.

With twenty-three cars stolen in a single  
day no wonder business is reported as  
being wonderfully good in Los Angeles.  
We even have New York skinned.

## THE YOUNG IDEA.

With 300,000 pupils enrolled in its pub-  
lic schools New York might almost lay  
claim to being an educational center. There  
must be some noise at vacation time.

## KNOCKED OUT.

When our constitutional amendments turn  
out to be unconstitutional it is time  
that government by referendum be given  
the once-over. The people are voting for  
a lot of measures and men that do not stand  
up when put to the test.

## THE SMUGGLERS.

Over 100 of the passengers on a steam-  
ship landing at San Francisco were found  
to have contraband liquors or drugs in their  
baggage. The rest of the world is far from  
being bone dry and the leakage into our  
own country is bound to be heavy.

## SWEETS TO THE SWEET.

Now they are making perfumes in Los  
Angeles. This is essentially fit and proper.  
Why should we go to Persia for our odors  
when the very air here is laden with the  
fragrance of the city garbages being hauled  
to Fontana? In a land of flowers and sun-  
shine we have perfumes to burn—in fact,  
you can smell some of them burning now.

## OVER THE RIBBON.

Now they are using jazz records on the  
phonograph to train girls for speed in  
schools of stenography. If a girl can pound  
her typewriter and keep up with the air of  
"Ain't We Got Fun" she is supposed to  
be a star performer. When a girl can play  
an Oliver in tune, with the latest for trot  
she is ready to take dictation from any  
merchant prince.

## MADE IN GERMANY.

Looks as though Germany would get a large  
slice of the world's automobile business.  
There are over 100 plants now turning out  
motors and they can sell a 100-horsepower  
car for one-third of the money it costs in  
America. Nearly 100,000 workmen are now  
employed in the automobile industry in  
Germany and they are putting in ten or  
twelve hours a day at it. They can undersell  
America in any part of the world and  
intend to do that very thing. What  
does Henry think about it?

## SCREENING THE SCREEN.

If they should get to having different  
regulation ordinances and film censorship  
in the cities the screen folk would have a  
lovely time in satisfying them all. For one  
thing the fans would have their evenings  
spoiled. The censors in some towns  
wouldn't even let the villain get a black  
If they have one kind of regulation  
in Philadelphia and another in Milwaukee  
the movie folk would have misery in ad-  
justing themselves to the situation. It  
should be understood that what is respect-  
able in one community is not presentable  
in another.

## CONFUSION OF TONGUES.

This country is a wonder. The affair  
at the Tower of Babel is as nothing to an  
ordinary afternoon in one of the big cities.  
All tongues are spoken in this old  
America. There's a woman in government  
passport work in Chicago who speaks twenty-  
two languages and understands a dozen more.  
It is said that on a single day recently she  
was called upon to act as interpreter in no  
less than twenty-eight different tongues and  
dialects. Dwellers from that many different  
countries were planning to visit the old  
home. There are more languages spoken  
on the streets of New York than in any  
other city of the world.

## RAKING DEAD LEAVES.

Is the screen in the hands of commer-  
cial vampires? Charlie Randall, former  
Congressman from the Ninth District, says  
it is and adds his fearsome belief that these  
same cinema Gasparros even seek to influ-  
ence the selection of members of Congress.  
Randall implies that the film industry  
sought to encompass his own defeat. This  
is a frightful charge, but we cannot help  
but hope that it is true. As Congressman  
Randall steadily sought to hound and har-  
ass the picture industry during his public  
career it is hardly possible that some of the  
movie folk would talk at voting for him  
when the final test came. They might even  
be pardoned for taking an interest in the  
selection of a Representative. Other fac-  
tions and interests have done it. Even  
union labor and high finance have had their  
whirl in Congressional propaganda. It is  
also probably true that Randall received  
the solid bootlegger vote of his district.  
They know on which side their bread is  
buttered and to whom they owe the oppor-  
tunity for existence and profit. Why  
shouldn't a movie man help the candidate  
who gives him a chance instead of supporting  
one who has steadfastly thrown rocks  
at the camera?

**WANING LABOR-UNIONISM.**  
President Gompers of the American  
Federation of Labor is loud in his lament  
over the waning interest throughout the  
country in the principles of labor-unionism.  
He has found so many desertions of workers  
from the ranks that the sum collected in  
dues during recent months is \$1,000,000  
less than collections for the same period  
last year. Unless something can be done  
to strengthen the allegiance of the membership  
he sees only disaster ahead for the  
labor-union movement.

Testimony from such a source is impor-  
tant, as it confirms from the inside what  
has been suspected from without ever since  
the radical and foreign elements gained con-  
trol of some of the most important unions  
affiliated with the American Federation  
of Labor.

This rebellion, however, is not against  
the spirit that impels workers to organize  
for mutual betterment, but against the  
methods by which the organizations are  
directed and certain un-American policies  
which they have been led through unwise  
leadership to espouse. The labor-union  
movement, as conceived by Mr. Gompers,  
has always been founded on coercion and  
violence. The leaders have depended not  
upon moral but physical force to triumph.  
Men and women have been enlisted for a  
war on the employers and on capital. The  
leaders arrogated certain special privileges  
for the membership which are flagrant  
violations of the rights of equal opportunity  
guaranteed under the Federal Constitution.  
They sought to supplant reason by force.  
They advocated open violation of Federal  
and State laws. They aimed, in short, to  
establish the domination of a single class, to  
create an imperium in imperio.

As long as the unions were weak public  
attention was not focused on the un-American  
principles which they were adopting.  
All desired that the condition of the work-  
ers should be ameliorated, that they should  
receive as high wages as industry could  
possibly permit, and there was a general  
feeling that, in many industries, the work-  
ers were making undue profits by keeping  
the scale of wages below that which per-  
mitted the workers and their families to  
maintain an American standard of living.

But Mr. Gompers and his associates were  
not content with demanding legitimate  
rights for the workers; they demanded  
special privileges at the expense of those  
not affiliated with the unions and against  
the public in general. When the American  
Federation of Labor adopted the closed-  
shop principle and when the unions pledged  
their members not to work in places where  
independent workmen were employed the  
labor-union movement departed from  
the path of justice and became a menace to  
the public good.

Mr. Gompers has struggled for thirty  
years to fasten the yoke of the closed shop  
upon the neck of American labor and for  
thirty years The Times has protested  
against this debasement of the hitherto  
independent workmen of the United States.  
The struggle has waged with varying  
fortunes. Los Angeles has remained free, but  
a score of great industrial communities were  
enslaved. The millions of foreign  
workers who came to this country during  
the decade before the World War proved  
an unfailing source of supply for recruits  
for the closed-shop movement. They knew  
little or nothing of the principles of Amer-  
ican freedom. They had lived in countries  
dominated by a single class and they readily  
believed that class domination here was  
possible.

But we may well hope that in North Ire-  
land, too, there is a voice of the people—a  
voice that will be raised to frustrate any  
stubborn individual aspirations that may  
week the results of the peace conference.

Under the former Sinn Fein demands Ulster  
was justified in her stand and had the rest  
of the British Empire with her, since it  
merely craved the privileges and security  
for itself under which other British  
dominions were governed. But if, under a  
scheme which brings Ireland as a whole,  
united and co-operative, into the empire  
under the almost identical conditions which  
obtain for Canada, Australia, South Africa  
and New Zealand, Ulster holds out for separa-  
tion of interests and administration, and thus  
defeats the consummation so devoutly  
to be wished, it will most assuredly alienate  
from itself the sympathy which the other  
dominions have hitherto accorded her.  
Ulster's old slogan that "Ulster will fight  
and Ulster will be right" will win no more  
sympathy than the same attitude won for  
Sinn Fein whose leaders so blatantly  
declared that, rather than forego the  
republic, every man, woman and child would  
give their lifeblood, it is obvious, indeed,  
that giving one's lifeblood has lost its  
meaning.

Since the great war, no matter what battles  
have been fought, no matter how much  
blood has been wantonly shed, the fact re-  
mains that the vast majority of the world's  
peoples have had their fill of war and all  
its sufferings and cruelty entailed. Humanity  
as a whole is looking to peace, holding  
the peace thought, and the urge to war  
will have to be peculiarly righteous, pecu-  
liarly inevitable before the voice of the  
people will again be raised on its behalf. When  
even Sinn Fein Ireland raises its voice for

**THE CITY'S LESSON.**  
I wandered to the city for a  
the narrow, crowded streets  
me the way.  
Like a stranger, friendless  
foreign land,  
mingled with the throng  
broad way.

I had not come for fortune  
fame.  
I cannot tell why, it was like a  
powerful.  
Which drew the young and old  
blind, the lame.

I longed to learn the secret  
this.  
How those cold streets and  
could create bite.  
What have to bring the  
had and have,  
To have the flowered fields, a  
own life.

I stopped, a withered hand  
touched my coat.  
I turned and saw a woman's  
and throat.  
As wrinkled as a fallen  
leaf.  
Wrapped in a ragged thing, the  
was a speck.

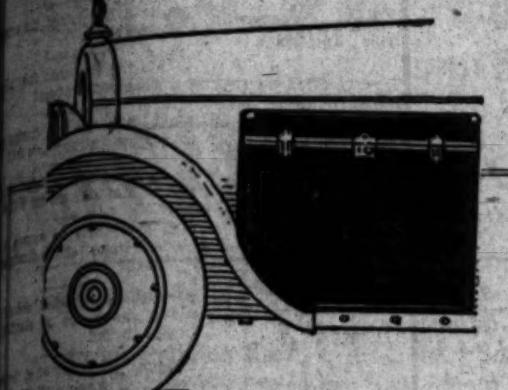

She was very cold and happy  
she said.  
Would I give enough for her  
for a bed?  
I missed a bill into her  
hand,  
And as I wandered on her eyes  
red.

Then I saw a newspaper, as he  
carries a noisy puppy.  
I stood and watched a little  
and thought.  
You have indeed found him  
little man.

I saw an officer, with words  
from the  
face.  
His ruddy face alight with  
sore.  
Again I saw trees were  
there.

## how to choose an executor

In the selection of an executor a man should not be influenced by personal friendships or associations. He should eliminate the "human element" and choose a solidly established institution of the highest character—one thoroughly equipped to handle his affairs efficiently and safely.

As he would turn to the highest authorities for dependable information on any given subject, so he should seek with an equal sense of reliability the services of Title Insurance and Trust Company, as executor and administrator of his Will.

This choice would give the heirs the benefit of broad experience, honesty, integrity, freedom from prejudices, constant availability, proper facilities for accurate accountings, and strictly business methods. Write or call for free booklet, "Your Will."

## TO BUILD PIPE LINE IN MEXICO.

Seal Beach Man Gets Permit  
for Great Project.

Will Send Oil to Pacific and  
Cut Present Delay.

Program to Make Fuel Supply  
of Fleet More Secure.

Concessions for the building of a \$10,000,000 pipe line from Puerto, Mex., on the gulf of Salina Cruz to points north, following the Tehuantepec Railroad, has just been granted by the Mexican government to Clay T. Terby, a resident of Seal Beach, according to dispatches from Mexico City. This enterprise will clip eleven days off the present time required to convey oil from Mexican fields to the Pacific Coast, it is said.

According to the concession granted to Mr. Terby, and his associate, Elmer B. Johnson, president of the line's Mexican subsidiary, the project will be operated under Mexican government regulation and the other half will be subject to contracts with oil companies to be a ten-inch line.

Work will be started at once and the line will be finished, it is expected, in two years. It will cut 11 miles off the distance now involved in conveying oil from Mexican fields to Pacific Coast ports via the Panama Canal.

The project is regarded as of significance for the reason that it will make it possible for the Pacific Fleet to obtain fuel oil from the Mexican fields eleven days quicker than is now required by present arrangements.

Several months ago Mexico denied the United States Shipping Board a concession similar to that which has been awarded to Mr. Terby.

**CAR LINE TO GRIFFITH PARK URGED.**

Board's Annual Report Says  
Development of Grounds  
Lies in Transportation.

The future use and development of Griffith Park lies in the establishing of a street-car line to the great recreation grounds, the Board of Park Commissioners stated in its annual report, issued yesterday by the City Council. The municipal motor-bus line brought thousands of visitors to the park last year; the report stated, but a direct street-car service is needed.

Board members and other organizations have long urged the extension of the Vermont Avenue streetcar line to the park entrance.

These applications are under consideration by the State Railroad Commission and the Board of Public Utilities.

A total of \$8,185 players used the municipal golf links at Griffith Park, the board said during the year, which was an increase of 12,130 players over the previous year.

The department's income from concessions in the park, permits and other sources amounted to \$22,953.57, of which \$22,655.57 was used in improvements, equipment and other expenses.

STATE UNIVERSITY WILL EXPAND WORK.

NEW CLASSES TO BE FORMED IN MANY CITIES OF SOUTHLAND.

Expansion of the educational work which has been carried on in Southern California for four years will be undertaken this winter by the extension division of the University of Southern California, according to an announcement yesterday by Mrs. Nadine Crump, southern representative, with offices at 625 Metropolitan Building. A permanent office already has been established at Long Beach, and another will be established in the Public Library at Long Beach. New classes will be formed in a number of Southern cities, it is stated, and larger than last year, it is stated.

The first of the extension-division classes will be started on Sept. 21, with instruction given in the following subjects: Spanish, elementary and advanced; algebra, commercial law, solid geometry, business investing, money and finance.

Fifty-nine instructors have been accepted by the university to conduct the local classes. One hundred classes will be organized during September and October in a great variety of subjects. Enrollments are being made at 628 Metropolitan Building.

**EDITORS TO MEET.**

Southern California Association to Convene Here This Month.

The annual meeting of the Southern California Editorial Association will be held here on the 26th inst., it was announced yesterday. It is expected that Edward E. Brodie, president of the National Editorial Association, and Frank W. Richardson, president of the California Press Association; Dr. J. Whiteman Compton, Bishop of Los Angeles, and Dist.-Atty. Woolwine, who will speak on "Crime and Crime Prevention," will be held in the Chamber of Commerce Building beginning at 9:30 a.m. and 1:30 p.m.

III-Health Drive Retired Business Men to Take Own Life.

Driven to desperation because of ill-health, according to the Alhambra police, Edward Wetterhahn, age 64 years, a retired business man, committed suicide in his home at 2515 Florence street, Monday afternoon.

He was found dead in his room, having fired a bullet from an automatic pistol into his heart.

Constable Barker of Alhambra, who investigated the case, said: "Did he kill himself?"

The coroner's inquest was adjourned until Friday morning, when it was decided that Mr. Wetterhahn had ended his own life.

The body was removed to the undertaking establishment of Frank Utter in Alhambra.

## Past and Future Diversions of Society.

### SOCIETY.

BY VIRGINIA WOODS.

In honor of Mrs. Richard Estes' 50th birthday, Mrs. Estes, her daughter, Miss Harvey S. Mott, and for Miss Spencer Lane Mott, who is visiting her niece, Mrs. Beverly Scott, Mrs. Robert Parratt McJohnston gave a beautifully arranged luncheon at the Beverly Hills Hotel.

On a table centered with flowers in rich autumn shades places were arranged for Mmes. Beverly Scott, Benjamin Franklin Perkins, Parka, C. J. Wylie, Macbeth, R. E. H. and Mrs. Wyman Johnson, Fannie Williams, Charles Jeffcoat, Alexander R. Barret, John Armstrong and Margaret Buckler.

**Hammond's Coming Home.**  
Mrs. and Mrs. Paul H. Hammond (Mrs. Walrus), whose marriage was one of the interesting events of early July, are on their way home from Europe. They are now in New York and are expected in Los Angeles at the end of the week. They toured France and were in London for several weeks, sailing for home from Liverpool on a Canadian-Pacific liner.

**At Pilgrimage.**  
Mrs. William Alexander is arranging a luncheon for Tuesday at the Pilgrimage Country Club.

**Mrs. Duran to Hostess.**  
Mrs. Willard J. Duran was hostess yesterday at an elaborate luncheon at the Los Angeles Country Club in honor of Mrs. Cyril W. Childs. The tables were beautifully decorated with fall colors, asters and other autumn blooms. There were places for thirty-four guests.

**Mrs. Childs is leaving on Friday.**  
Mrs. New York, where she will remain several weeks.

**Miss New Home.**  
Mr. and Mrs. Wilbur Blake Smith (Mrs. Johnson) are moving into their attractive little Spanish flat at South Western and La Brea on the first of the month. Their marriage was a recent social event in San Francisco, which surprised their friends here as well as in the Bay City.

**At De Mille's Tea.**  
Mrs. William De Mille gave a smart little tea on Monday afternoon in honor of Misses Eleanor Givens, who is leaving for London. Flowers and cut flowers adorned the room. There were thirty guests.

**Giving Birth.**

### ITALIAN CHEF TELLS SECRETS.

Pittsburg Restaurant Dishes Exalted by Wyman.

Palatable Salads Described for Housewives.

Boiled Beef and Roast Lamb Also Are Praised.

BY A. L. WYMAN, M.C.A.

PITTSBURG, Sept. 16.—One of the best Italian restaurants that we have found is located on Fifth avenue in this city. The dishes have a flavor seldom found in restaurants of this character, a flavor that only an artist in blending food-stuffs and condiments can achieve.

The culinary expert who presides over this restaurant foods that have made this restaurant famous throughout Pennsylvania was for many years chef of one of San Francisco's leading restaurants and it is like meeting an old friend to talk with him. One of his hot-weather specialties is an omelet made by slicing watercress on a cupful of eggs and adding a few spoonfuls of butter and when it is half cooked three well-beaten eggs are added and the pan is turned. When the egg is set place the omelet on a dish and garnish with thin slices of tomato dipped in French dressing.

Another dish for the principal dish of a summer luncheon is made by mixing in a bowl that has been rubbed with a glove of garlic, one cupful of cucumber dice, one cupful of tomatoes, one cupful of onions, half a cupful of finely chopped celery, half a cupful of wafer-thin slices of red radishes and half a cupful of green radishes. After adding the dressing allow the salad to stand in the ice box for half an hour, then drain off all the dressing and serve on a bed of watercress.

This chef serves with roast lamb sliced tomatoes that have been dipped in mint sauce and dusted with paprika.

**POPULAR SALAD.**

A salad that is very popular here is made by mixing equal quantities of diced grapefruit, fresh seedless grapes, chopped seeded raisins and diced oranges with French dressing.

**At Home Again.**

Mr. and Mrs. Thomas Jefferson are back in their home at the Bayview Apartments, having spent the summer at the beach and in the mountains. For a time they were at Vents with the family of their son-in-law, Mr. and Mrs. J. E. Hillman, and later were at their cabin home at Twin Peaks. Their son, Thomas Jefferson Douglas, Jr. and his wife, Walter and their son, Jefferson Douglas III, are returning to Mexico this week and the first of the year will move into Los Angeles.

**For New York Matron.**

Mr. Richard Estes, Jr., the son of Mr. and Mrs. Estes, is to have a luncheon Mrs. William Duran is arranging for Wednesday of next week at the Hotel Vista del Arroyo.

**At Breakfast Party.**

Mrs. Margaret Buckler is to preside at a breakfast party for a large number of guests on Saturday at the American Legion Hall.

Miss Byra Kinsey was hostess at a delightful luncheon and swimming party yesterday at her home at the beach.

**WHY DO WE CALL SOME PEOPLE "SNOB'S"?**

(Copyright 1921, by The Wheeler Syndicate, Inc.)

Used in the sense of one who is not a gentleman and who therefore overestimates the value of rank and position, "snob" has a history as interesting as any word in the English language—for it really belongs to the same class as "mob," being an abbreviation of a name derived from Latin.

During the latter part of the eighteenth century and the early part of the nineteenth, a number of the "exclusive" colleges in England and America were founded, and it is

noted that the majority of their pupils were from the ranks of the nobility.

In some cases being even of royal birth. This, of course, had the effect of raising the school in the estimation of those who, while wealthy enough to send their sons there for education, did not have the privilege of doing so. In order to differentiate between the scions of the noble houses and those of lesser birth it was customary to enter the name of the latter class upon the school register with the addition of "a nob." this being an abbreviation of the Latin "sine nobilitate" or "without nobility."

Many of these coats as well as those of Scotch Mole are designed especially for the miss and young matron.

**Scotch Mole.**

The beauty of Scotch Mole lies in its silky texture, the lights

and shadows on its surface and its flexibility.

The Coats and Wraps for 1921 come in many styles, from

sports models, 36 inches long to the dresser wrap, 47 inches in length.

They have interesting collars of great depth. Some are of

the mole itself, others of squirrel or skunk.

**Hudson Seal**

(*Dyed Muskrat*)

A wrap of this beautiful—and durable—fur is something to be treasured always. It will withstand many seasons of hard service.

It is a fur which admits of delightful style treatment. When

American broadtail, skunk, squirrel and Kolinsky are lavishly used as collars and cuffs for these luxurious models, the effect is small indeed.

Many of these coats as well as those of Scotch Mole are de-

signed especially for the miss and young matron.

**Fur Neck Pieces**

R OBINSON'S showing of the late designs in Fur Neckpieces is

very extensive. They were chosen by experts for women

who instinctively recognize goodness and beauty—and, of

course, becomingness—in furs.

That they are extraordinary values may be seen from these

were painfully injured by the

speeding car and Baldwin claims

that Boggs was driving at the

time of the accident.

The boys were marching in military formation north on Garvey avenue and were just north of Franklin avenue when the car, which was moving over and struck the outside boys of the squad, knocking them down.

The seven injured boys are: Raymond, Tom Burke, Titian Ferrozzini, Maxwell Sheppard and Raymond Strong. Their injuries were treated at the Pomona Valley Hospital.

The most marvelous machine in the world—and how it is neglected

Away back in the school books was a lesson on physiology.

Not dull as a lesson. Yet it was the story of the most marvelous machine ever created—and how the machine works and does its work.

This machine is the human body.

Someday the mechanical expert of this machine—the doctor—finds out for us where we have missed the lesson and neglected the machine.

GRAPE-NUTS food was made in accordance with the school book lesson on when the body needs and how its needs may best be supplied.

It is possible for a delicious food to be a scientific, "power" food. Grape-Nuts is such a food.

## Perfecting Natural Gifts

Twenty hours of continuous baking has done certain wonderful things to the nourishing properties of whole wheat and malted barley flour, from which Grape-Nuts is made—and has made a food in the form of crisp, golden-brown granules.

You chew Grape-Nuts thoroughly.

The rich, sweet flavor of Grape-Nuts is the reward of chewing. Nature loves the teeth to be used. Primitive people, who keep the natural teeth sound and perfect to old age, are experts of food, which requires chewing. Civilization gives the teeth work to do.

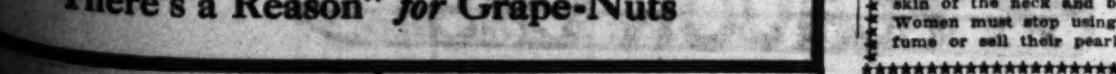

Perhaps you remember a little of the physiology lesson, now—how the salivary juices respond when the food is thoroughly chewed—and the first important step in digestion is taken.

**GOVERNOR MAY BE UNDER FIRE.**

Insurance Men Expect to Aim Hot Shots at Stephens.

National Convention Opens at Get-Together Dinner.

Mayor to Welcome Visitors at First Western Meet.

Hot shots aimed at Gov. Stephens are expected to feature the first convention held in the far West by the National Association of Insurance Agents in its more than quarter century of existence. The convention, which will officially open this morning, began last night with a get-together banquet at the Ambassador with 1000 agents present. Today 1500, many of them late arrivals, will attend the business sessions.

While the local meeting is that of a national organization, the voting on Gov. Stephens of three insurance bills which were passed by the Legislature will be discussed and several guns will be fired at the governor before the end of the convention, say several delegates. The bills, which the insurance men succeeded in having passed only to have them killed by the Governor are the agents' qualification bill, to regulate premium brokers and a state-wide re-insurance bill holding the trustees of a rebate equally responsible with the giver, and the residents agent bill tending to raise the standards of the profession.

Discussion of these bills will not be taken up, however, until the convention is well under way, and members of national importance have been dismissed.

**HIGH JINKS HELD.**

The banquet last night, which was a high jinks affair, was in the nature of a high jinks for the men. There were no speakers announced. But President Matt E. Mancha, of Perth Amboy, N. J., called on delegations from time to time, but did not permit them to discuss anything of a serious nature. There were a number of women present.

The twenty-sixth annual convention will begin today with a hand concert in the Seventh-street court of the hotel at 10 o'clock. President Cryer will call the convention to order in the Ambassador convention hall. Mayor Cryer will greet the delegates and then the annual session of the executive committee, which will be presided over by James L. Case of Newark, C. T., chairman of the executive committee, will read that body's report and the various communications to the convention from the states.

The secretary-treasurer's report will be read by Walter H. Bennett of New York, and Chairman Charles Wilson of Philadelphia, Miss., will read the finance committee's report.

The session will close with an open discussion of subjects presented from the floor.

**EXCITEMENT PROMISED.**

Excitement is promised for this afternoon's session by several delegates, who state that the Undermyer report, in which he charges that insurance companies were in a large measure responsible for the recent gas explosion in New York, will be taken up.
